

METRICK'S HARVEST VIEW FARM 2021 CSA

143 Eagle Mill Road Butler, PA 16001 724-282-8038

www.harvestviewfarm.com Follow us on Facebook & Instagram

Metrick's Harvest View Farm's CSA provides you with a means of purchasing fresh vegetables and fruits from our farm. Quality is of great importance in all we produce. Our produce is not shipped long distance for several days. There is no forced ripening. The produce you receive is picked within 24 hours (other than storage crops such as apples, potatoes, winter squash, etc.) of being on your table. You can be sure our crops are grown using approved and acceptable practices, harvested at optimum ripeness to provide the best taste and nutritional value. Most importantly, the produce is grown by us here at Harvest View Farm whom you've grown to know and trust.

Locally grown food supports local agriculture which preserves farmland and open space which keeps local family farms viable. It also keeps the dollars in our local community to sustain it for the future.

A CSA is unique as you, the consumer chooses to invest in a share of the farm experience.

We offer 2 options -- Full Share which is picked up weekly for 24 weeks.

Half share which is picked up Bi-weekly over 24 weeks

Again this year we are offering a cheese add on. We've had wonderful response to the locally produced cheese we carry so once again we've decided to offer it as an add on for our CSA subscribers. We've also offer a dairy add on this year. You will receive Milk and 2 other dairy products made from locally produced milk.

New...Cut Flower Add On! 4 times during the summer you will receive a beautiful arrangement of our own cut flowers arranged by Amy

Subscribers will also receive a weekly newsletter and an invitation to our annual appreciation event held in late summer here at the farm!

Thank You The Metrick Family Ken-Cathy-Amy-Laura & Crew
